The Scotiabank Convention Centre must receive this Booth Layout Form along with your completed Electrical Order Form to ensure proper placement of services in your booth.

Use the grid below to indicate placement of Scotiabank Convention Centre services and your product.

- Use bold lines to indicate the outline of your booth
- Circle the correct booth type and fill in the proper orientation around your booth.
INLINE BOOTH PENINSULA BOOTH ISLAND BOOTH
- Indicate the dimensions of your booth _____
10x10: 1 square = 1 foot; 20x20: 1 square = 2 feet; 40x40: 1 square = 4 feet etc.
- Overhead or Undercarpet outlets: Draw an 'O' for Overhead or 'U' for Undercarpet placement

BACK OF BOOTH Indicate Adjacent Booth or Aisle Number: _____

Adjacent Booth or Aisle Number: _____

Adjacent Booth or Aisle Number: _____

FRONT OF BOOTH Indicate Adjacent Booth or Aisle Number: _____

All orders are governed by the Scotiabank Convention Centre Payment Policy and Terms Conditions of Contract as specified on order form or website.

Electrical Services

SPECIFICATIONS:

1. The Scotiabank Convention Centre has 120VAC/208VAC/600VAC Single and Three Phase 60HZ Power Available. Please check with your SCCN technical coordinator to verify your equipment compatibility.
2. The Scotiabank Convention Centre can provide other voltage and amperage requirements with the use of a transformer. Transformers must be placed within your booth space, so please allow for the transformer when you do your space plan/layout. Approximate size can be provided by your SCCN technical coordinator (see below for contact info).
3. The Scotiabank Convention Centre shall require the use of transformers for 208 Volt Single and Three Phase power connections greater than 30 Amps.
4. The Scotiabank Convention Centre does not require the use of transformers for 600 Volt Single and Three Phase power connections.
5. If you have an Island Booth, please indicate a main power drop location on the Booth Layout Form and submit it with your Electrical Order Form. The SCCN will distribute under carpet outlets from that location.

REGULATIONS:

PLEASE NOTE: Ontario's Electrical Safety Authority (ESA) requires that all equipment be electrically approved for use by a recognized certification agency acceptable to the Electrical Safety Authority before it can be displayed and/or powered during an event.

If electrical certification is required, exhibitors are responsible to obtain 'Permission to Show/Energize' from the Electrical Safety Authority (ESA) directly. The Scotiabank Convention Centre cannot be responsible for this permission. To obtain the ESA 'Permission to Show/Energize', please visit: www.esasafe.com/contractors/worker-safety/product-review/product-approval-requirements to apply for permission/approval from the ESA.

Apply as soon as possible to avoid complications!

HELPFUL HINTS:

1. Only Scotiabank Convention Centre electricians or authorized electrical contractors can connect and disconnect power to equipment. Borrowing power from an adjoining booth is NOT permitted.
2. The Scotiabank Convention Centre reserves the right to inspect any and all customer/client electrical connections, equipment and service requirements.
3. Check the equipment nameplate for all electrical specifications.
4. Contact your SCCN technical coordinator for all 24-hour power requirements (ex: refrigerators and freezers etc.).
5. All equipment must have a 3-wire grounded cord installed prior to energizing.
6. A Ground Fault Circuit Interrupter (GFI) shall be installed to protect all 120 Volt electrical equipment within 10 feet of a water and/or liquid source.
